I love developing websites for Clients and Organizations. I want to give my 100% effort in any task which is given to me. I love to work as a team collaborating with my team members and interact with them to learn something new.

Work Experience

MERN Stack • MINDRISERS

May 2024 - Present | Kathmandu, Nepal

- Proficient in HTML, CSS and Javascript
 - Experience with Tailwind CSS as frontend CSS Framework with its utilities
 - Proficient in React.js for building user interfaces and state management
 - Used Redux Toolkit and Context API for prop drilling
 - Designing and Developing RESTFUL APIs using Node.js and Express.js
 - Database Design and Implementation using MongoDB
 - Worked with MVC Architecture

Education

Tribhuvan University

Bachelors in Computer Application • 2021 - 2025

Developed a job portal system for my 4th sem project using HTML, CSS, MYSQL and PHP, Used Bootstrap as CSS Framework and Used AdminLTE for admin panel. User can apply for a job and employer can accept the job. User can see the job listings in the main page. Proper documentation of the Project.

Projects

- Bookstore (Associated with Mindrisers) : Implemented RTK Query for fetching of response as it supports caching for quick response of the data from the API endpoints. Used Swagger for testing the API endpoint. Used React-Hook-Form to validate the given form, Flexible to use ZOD or YUP package for schema definition of the given form. Used Tailwind CSS to work on designs of the Application. Used React Hook and components for robust development of the project. Used State Management tools for development.
